PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in React.js, Laravel, PHP, MySQL, and RESTful APIs. Collaborated with a 3-member team of designers and backend engineers to ship 5 production web applications. Built 3 of these end-to-end independently and co-built 2 as part of the team. Skilled in MVC architecture, Eloquent ORM, Git, Tailwind CSS, Bootstrap, cross-browser testing, SEO, and performance optimization.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), PHP, SQL

Frontend: React.js, JavaScript, Tailwind CSS, Bootstrap, Responsive Design

Backend: PHP, Laravel, RESTful APIs, MVC Architecture, Eloquent ORM

Database: MySQL

Tools and Platforms: Git, GitHub, Vercel, Figma, Composer

Core Concepts: Full-Stack Development, REST API Design, Cross-Browser Compatibility, SEO, Web Performance Optimization, Agile Development, Database Design, Query Optimization

PROFESSIONAL EXPERIENCE

Full-Stack Developer, MarkDev (Dec 2025 - Present)

Bahawalpur, Pakistan

- Collaborated with a 3-member team to ship 5 production web apps, building 3 independently end-to-end.
- Built and maintained Laravel and PHP applications with MySQL-backed data models and RESTful APIs.
- Applied MVC architecture and Eloquent ORM to deliver maintainable production features.
- Designed and optimized relational database schemas across all 5 shipped projects.
- Wrote efficient SQL queries and Eloquent ORM relationships for high-performance data operations.
- Built responsive, cross-browser-compatible interfaces using HTML5, CSS3, JavaScript, Tailwind CSS, and Bootstrap.
- Tested UI across 3 major browsers (Chrome, Firefox, Safari) for consistent cross-browser performance.
- Translated Figma design mockups into production-ready components within an agile workflow.

Frontend Developer Intern, TechSpark (May 2025 - Jul 2025)

Bahawalpur, Pakistan

- Gained hands-on front-end experience using HTML, CSS, JavaScript, and React.js.
- Converted Figma layouts into fully responsive, pixel-accurate production web pages.
- Practiced Git version control while contributing within an agile team environment.

PROJECTS

Mansha Motors - Car Dealership Management System (Team Project) - manshamotors.com

- Collaborated with a 3-member team to build a full-stack dealership system in Laravel, PHP, MySQL, and Tailwind CSS.
- Delivered admin workflows for inventory, customer records, sales tracking, and installment scheduling.

MarkDev Admin and Student Panel (Team Project, In Progress)

- Collaborating with a 3-member team to build an admin and student panel system, currently in development.
- Contributing to backend logic and panel workflows alongside designers and backend engineers.

Fahad Motors - Car Dealership Backend (Independent Project)

- Built the Laravel backend independently for a car dealership platform, with no frontend included.
- Adapted backend logic from Mansha Motors and resolved database connection and session-configuration issues.

LLM Chat Application (Independent Project)

- Developed a chat application independently, integrating a large language model (LLM) API.
- Handled conversational UI and backend request processing for real-time responses.

Ilm-e-Quran Academy Website (Independent Project) - ilmequranacademy.com

- Designed and built a responsive, SEO-optimized website independently using HTML, CSS, and JavaScript.

Vortex Soft - Software House Website (Independent Project) - vortexsoft.com/

- Built a multi-section agency website independently using Tailwind CSS and JavaScript.
- Delivered services, portfolio, team, and contact components for the site.
