PROFESSIONAL SUMMARY

Full-Stack Developer experienced in building and integrating responsive frontend interfaces with Laravel/PHP backends, RESTful APIs, and MySQL-backed data models. Skilled in MVC architecture, Eloquent ORM, database design and query optimization, cross-browser testing, and agile collaboration with designers and backend engineers.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, SQL, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Design, Cross-Browser Compatibility

Backend: Laravel, PHP, RESTful APIs, MVC Architecture, Eloquent ORM

Database: MySQL, Relational Schema Design, Query Optimization

Tools: Git, GitHub, Figma (design-to-code), Composer, Vercel

PROFESSIONAL EXPERIENCE

Full-Stack Developer, MarkDev

Bahawalpur, Pakistan | Dec 2025 – Present

- Collaborated with a 3-member team to ship 5 production web applications, building 3 independently end-to-end, integrating frontend and backend components.
- Built and maintained Laravel/PHP applications with MySQL-backed data models and RESTful APIs, applying MVC architecture and Eloquent ORM.
- Designed and optimized relational database schemas and wrote efficient SQL/Eloquent queries for high-performance data operations across all 5 shipped projects.
- Built responsive, cross-browser-tested interfaces (Chrome, Firefox, Safari) using HTML5, CSS3, JavaScript, Tailwind CSS, and Bootstrap; translated Figma mockups into production components within an agile workflow.

Frontend Developer Intern, TechSpark

Bahawalpur, Pakistan | May 2025 – Jul 2025

- Built frontend features using HTML, CSS, JavaScript, React.js, and Redux/state management concepts.
- Converted Figma layouts into fully responsive, pixel-accurate production web pages while practicing Git version control within an agile team.

PROJECTS

Mansha Motors – Car Dealership Management System (Team Project) — manshamotors.com

- Collaborated with a 3-member team to build a full-stack dealership system in Laravel, PHP, MySQL, and Tailwind CSS.
- Delivered admin workflows for inventory, customer records, sales tracking, and installment scheduling.

Fahad Motors – Car Dealership Backend (Independent Project)

- Built the Laravel backend independently for a car dealership platform, resolving database connection and session-configuration issues.

LLM Chat Application (Independent Project)

- Developed a chat application independently, integrating a large language model (LLM) API with real-time frontend/backend request handling.

EDUCATION

Master of Computer Science (MCS), Islamia University Bahawalpur — GPA 3.8/4.0 (Sep 2020 – Jul 2022)

BSc, Double Computer, Islamia University Bahawalpur — 76% (2018 – 2020)

CERTIFICATIONS

JavaScript Essentials, Cisco Networking Academy, 2025
